

Minute

Parents of Cubs in Pack 281,

Happy Belated July 4th.

I want to first, give a thanks to Joe Macy, who planned, organized and lead this year's 4th of July Parade float. And I want to thank everyone who helped build it and those who rode or walked with the float this year. As most already know, our pack float won First Place in the Most Creative Float category. And the American Legion family won second place in the same category, so for me it was a great morning. And being that the weather was iffy, there was still a great showing of people lining the streets. My son ran out of candy to throw to the people about halfway through the parade as we didn't think that many people would show.

We will, this year, have many activities for the boys to have fun and earn their achievements and badges for their next ranks. There is so much happening this year, we at the planning meeting, had a difficult time finding dates for the events. Please review the calendar every few weeks as we will be adding more to it as events pop up. I will also continue to send emails through the yahoo group of events that the Legion and other groups are holding that I think you and your family might enjoy.

If you have any questions, please do not hesitate to contact me via the P281.org website or direct email at cubmaster@p281.org. Thanks and have a wonderful month.

Sincerely,
Brad Evans
